

## about

---

60% introvert 40% extrovert, wannabe art and film director, haunt by creative urge since toddler. better creator than talker, placid and patient most of the time, occasionally impulsive, good mediator, curious monkey. former rational guy, learnt to trust intuition. ambitious and fond of change, challenge, growth. dreams to have some fun earning some money, to have some kids and an old little dog, to see inter milan win the champions league and to go back to calabria, maybe, when old.
