[0] **about me**

**Interior Designer with a strong interest in exhibition spaces, spatial staging, and the relationship between people and their environment. My work combines design, storytelling, and attention to detail, guided by an essential and conceptual approach. I have developed projects in interior, product, and exhibition design, exploring themes such as living, sharing, and the experience of space. I am motivated to grow in multidisciplinary contexts, where design becomes a tool for dialogue and meaning.**
